

PC40 - Simple charger

Type designation: **PC40**

PN (RN): **7411.100.01**

Designed to charge one LP40 battery in both versions. The charger is designed as a network adapter with a cable fitted with a battery connector. An indicator light on the adapter and an LCD display on the battery provide basic information about the charging progress and status.

Operating features

- standard mains power supply in the range of 100 VAC to 240 VAC,
- maximum charging current of 0.9 A.
