

Telephone frame

NSN: **5975160018704**

PN (RN): **2200.750.01**

KČN: **0064662200848**

The attachment frame is made of steel sheet and lacquered with black paint. The frame is attached to a horizontal/vertical plate by bolts or screws and the telephone cabinet is mounted on it. The cabinet is secured by a lever quick-lock. The frame design thus provides for quick mounting and removing of the telephone without using any tools.
