

RF1302E - set with modular carrying system elements

Type designation: **RF1302E**

PN (RN): **2300.000.61**

Set consists of RF20 EPM handheld transceiver and accessories. The RF20 multiband transceiver with improved resistance to electronic warfare is designated for use at the lowest tactical command levels for all kinds of military units. Depending on the type of selected frequency band, the transceiver is able to communicate in HF band with frequency modulation, with VHF RF13 transceivers, #RF2350#, #RF2050# mobile transceivers and with airborne transceivers in Aircraft band I. For more details on RF20 transceiver and other set components see relevant pages of this website.
