

# RF23 - EPM handheld transceiver set

Type designation: **RF23**

PN (RN): **2300.000.42**

Set consists of RF23 EPM handheld multiband transceiver and accessories. The RF23 EPM transceiver with enhanced resistance to radio-electronic warfare is designed for tactical command level for all military branches. The RF23 complements the RF20 radio system. It differs from the RF20 handheld transceiver in particular by its connectivity to standardized accessories used by other radio manufacturers - antennas and electro-acoustic sets. For more details on RF23 transceiver and other set components see relevant pages of this website.
